WHAT IS IT?

The C-STEM program provides K-14 students with an exceptional opportunity of hands-on integrated learning of math and computer science with robotics.

BENEFITS

- College readiness
- Hands-on learning
- Computer programming skills
- Real world applications
- UC-approved program for admission
- Beginner friendly

WHAT DO STUDENTS THINK?

"I like learning with C-STEM because it lets us do something other than using the textbooks."

"Well, I think best thing about using Link-bots is being able to create your own programs and getting to watch them move. It's really exciting!"
