The C-STEM GIRL Camps are focused on motivating girls in middle school entering 7th or 8th grade in Fall 2015 to learn computing and STEM concepts through a fun and exciting robotics-based curriculum. We hope this leadership camp will enable them to serve as leaders and inspire other young girls to gain interest in science and technology through creating and joining robotics clubs in their schools and participating in the RoboPlay Competition on C-STEM Day. The camp participants are also eligible for the Girl's Leadership Award.

Curriculum Focuses on:

- Robotics
- Principles of Engineering
- Programming in C
- Leadership Skills
- Teamwork
- Building Confidence
- Women in IT
