

CALL FOR VOLUNTEERS

C-STEM DAY MAY 20, 2017

What is C-STEM Day?

C-STEM Day is a culminating event for the C-STEM program with curriculum-based RoboPlay Challenge and Video Competitions to further engage students in project-based team activities to showcase their accomplishments and creativity in not only math and engineering, but also in writing, art, music and film production.

What does a volunteer do?

Volunteers assist in judging the RoboPlay Video and Challenge competitions, help with registration, guide students through their process, and help the C-STEM staff ensure the day is run smoothly.

Interested in volunteering?

The success of previous C-STEM Days' can be contributed to the generous time given by teachers, parents, and community members. To be a part of the continued success, please sign up to be a volunteer today. To learn more or become a volunteer please contact us.
