

G irls In R obotics L eadership + CAMP

The C-STEM GIRL+ Camps are focused on motivating girls in high school leaving the 9th, 10th, 11th, and 12th grade to learn computing and STEM concepts through a fun and exciting robotics and Arduino based curriculum. We hope this leadership camp will enable them to serve as leaders and inspire other young women to gain interest in science and technology through creating and joining robotics clubs in their schools and participating in the RoboPlay Competition on C-STEM Day. The camp participants are also eligible for the Girl's Leadership Award.

Location: Virtual

Time: 8:30 am - 11:30 am PST

Date: June 21-25, 2021
